

### Cyber Security Snow Cone Day

Thursday, April 20 ICT's Student Tech group held a spring snow day to kick off the summer and talk to students about securing personal data and using safe practices online. Free snow cones were handed out along with tips for using the secure AggieAir network, and information about NMSU's free antivirus Sophos software. The event which attracted more than 340 students, faculty, and staff, was held outside of the Hardman & Jacob's Undergraduate Learning Center.

### Opportunity for Improvement

Hunter Training and Consulting has delivered the final report for the NMSU Custodial Services Management Assessment. This has been posted on the Facilities and Services website and can be accessed in the [Facilities and Services Library](#). There are links for the reports and action plan that is being used for implementation. The Custodial Leadership Team will be providing bi-weekly progress reports that will be included in the weekly report.

### NMSU Information Technology Survey released on April 20<sup>th</sup>

ICT's Student Technology and Planning group released the biennial information technologies survey for students, faculty and staff at all NMSU campuses. This year, the survey is a collaboration between ICT and the Department of Sociology. Since 2012, data collected from the survey is used to improve technology services at NMSU. All students, faculty, and staff are invited to take the survey at <https://studenttech.nmsu.edu/>

### Ignite AGGIE Discovery

Facilities Operations is supporting Ignite AGGIE Discovery by installing the information banners down the International Mall, on University Avenue and Union Street. The crew recently became certified to design and set up temporary work traffic control zones which allow us to safely block roadways while performing work.
